Subject Index

- Abscess drainage, lung, percutaneous, 339
- Aneurysm,
 - , colic artery, ruptured, selective arteriography, 167
 - , embolization,
 - , inferior pancreaticoduodenal artery, 217
 - , splenic artery, 179
- Angiography,
 - , in aortoarteritis, 2
 - , magnetic resonance, 2D, TOF, 138
 - , myocardial infarction, 87
- Angiomyolipoma, fat thrombus in IVC, 152
- Angioplasty,
 - , percutaneous transluminal,
 - , alone and with Wallstent,
 - , in pig iliac arteries, 190
 - , in subclavian steal syndrome, 328
 - , influence of angiographic morphology on outcome in aortitis, 147
 - , with thrombolysis in Buerger's disease, 333
 - , renal artery disease in azotemic patients, 143
 - , technique, crossover guidewire loop, 116
- Angioscopy, quantitative, luminal dimensions, 197
- Aortic aneurysms, turbo-FLASH MR, 17
- Aortic bifurcation obstruction, PTA technique, 116
- Aortic dissection, dynamic MRI, 17
- Aortitis, Takayasu's
 - , expanding metallic stents, 102
 - , influence of angiographic morphology on PTA outcome, 147
- Aortoarteritis, pulmonary artery involvement, 2
- Arteries, peripheral, Omnicath atherectomy, 226
- Arteriography, selective, ruptured aneurysm, 167
- Arteriovenous,
 - , fistula, postlaminectomy, 336
 - , malformation, mandibular, 222
- Artery,
 - , brachial, fibromuscular disease, digital emboli, 69, 95, 99
 - , bronchial, embolization,
 - , complication, 36
 - , for hemoptysis, 276
 - , dynamic mechanical properties, 312
 - , elasticity, 22
 - , femoropopliteal,
 - , directional atherectomy, 305
 - , occlusion, hydrophilic guidewire, 319
 - , gastroduodenal, perforation by guidewire, 41
 - , iliac, pig, PTA and Wallstent placement, 190
 - , inferior pancreaticoduodenal, aneurysm, embolization, 217
 - , popliteal, atherectomy, 312
 - , pulmonary, sarcoma, CT, MRI, 185
 - , marginal of Drummond, embolization for hemorrhage, 161
 - , middle colic, ruptured aneurysm, selective arteriography, 167
 - , renal,
 - , disease, PTA in azotemic patients, 143
 - , percutaneous recanalization, 258
 - , 2D TOF magnetic resonance angiography, 138
 - , splenic, aneurysm, embolization, 179
 - , superficial femoral, atherectomy, 312
 - , superior SMA,
 - , fibrinolysis, rtPA, 214
 - , thrombolysis, 164
 - , supraaortic, lesion, in renovascular hypertension, 264
 - , upper limb, thrombolysis for ischemia, 81
- Ascites, malignant, indwelling peritoneal access, 292
- Aspiration,
 - , embolectomy, percutaneous long-term results, 241
 - , needle, hydatid cysts, 271
- Atherectomy,
 - , catheter, Omnicath, in swine, 226
 - , comparison with PTA, 305
 - , infrainguinal directional, 305
 - , PT, superficial femoral and popliteal arteries, 312
- Atheromatous plaque, angiography, 87
- Azotemia, PTAA, 143
- Bile duct stenosis in liver Tx, stenting, 210
- Biliary drainage, fistula, 295
- Biliary strictures, metallic stent, 127
- Biopsy, liver, transfemoral, by forceps, 252
- Brachial artery, fibromuscular disease, digital emboli, 69, 95, 99
- Bronchial artery embolization,
 - , complications, 36
 - , for hemoptysis, 276
- Buerger's disease, thrombolysis and angioplasty, 333
- Carbon dioxide microbubbles, US enhancement, liver tumors, 133
- Carcinoma, renal cell, TAE with ethanol and iodized oil, 323
- Catheter,
 - , atherectomy, Omnicath, in swine, 226
 - , complication,
 - , perforation, 41
 - , sutured to IVC wall, retrieval, 347
 - , catheterization, right heart, complication, 301
- Cholecystodocholithotomy, percutaneous, 207
- Cirrhosis, TIPS, 44
 - , partially thrombosed portal veins, 106
 - , thin-needle puncture technique, 343
 - , with Wallstent, 7
- Coils, platinum, venogenic impotence, 170
- Computed tomography, pulmonary artery sarcoma, 185
- Contrast radiation, afterloading technique, 12
- Coronary artery disease, angiography, 87
- Dacron mesh-covered Z-stent, 33
- Digital emboli, brachial artery fibromuscular disease, 95, 99
- Digital subtraction angiography, aortoarteritis, 2
- Directional atherectomy,
 - , comparison to PTA, 305
 - , infrainguinal, 305
- Drainage,
 - , biliary, fistula, 295
 - , percutaneous, lung abscess, 339
- Embolectomy,
 - , percutaneous aspiration, long-term results, 241
 - , pseudoaneurysm, embolization, 155
- Emboli, digital, brachial artery fibromuscular disease, 65, 69
- Embolization,
 - , bronchial artery,
 - , complication, 36
 - , for hemoptysis, 276
 - , direct, postembolectomy pseudoaneurysm, 155
 - , inferior pancreaticoduodenal artery aneurysm, 217
 - , mandibular AVM, direct transosseous puncture, 222
 - , splenic artery aneurysm, 179

- , transbiliary, biliary-hepatic artery fistula, 295
- , transcatheter arterial,
 - , and ethanol injection, in HCC, 70
 - , dose level of Lipiodol, 76
 - , marginal artery of Drummond, for hemorrhage, 161
 - , renal cell carcinoma, with ethanol and iodized oil, 323
- , transhepatic shunt, for encephalopathy, 298
- Encephalopathy, hepatic, from splenorenal shunt, 298
- Ethanol injection, TAE,
 - , for HCC, 70
 - , for renal cell carcinoma, with iodized oil, 323
- Femoropopliteal artery,
 - , directional atherectomy, 305
 - , occlusion, hydrophilic guidewire, movable core, 319
- Fibrinolysis, rtPA, superior SMA, 214
- Fibromuscular disease, brachial artery, digital emboli, 69, 95, 99
- Filter placement, IVC thrombosis after, 38
- Filter,
 - , Greenfield IVC,
 - , misplaced, retrieval, 110
 - , strut interlocking, 204
 - , Gunther basket, IVC, mechanical instability, 247
- Fistula,
 - , biliary-hepatic artery, embolization, 295
 - , portal vein, 44
 - , postlaminectomy, AV, 336
- Foreign body retrieval,
 - , deeply-lodged catheter fragments, 113
 - , filter, 110
 - , sutured central venous catheter in IVC, 347
- Gastroduodenal artery perforation by guidewire, 41
- Guidewire,
 - , arterial perforation, 41
 - , hydrophilic, movable core, 319
- Gunther basket IVC filter, mechanical instability, 247
- Heart catheterization, pseudoaneurysm, 301
- Hemoptysis, bronchial artery embolization, 276
- , complication, 36
- Hemorrhage,
 - , after guidewire perforation, 41
 - , embolization of marginal artery of Drummond, 161
- Heparin, complication, embolization for hemorrhage, 161
- Hepatic encephalopathy from splenorenal shunt, 298
- Hepatocellular carcinoma, TAE,
 - , and ethanol injection, 70
 - , lipiodol dose level, 76
- Hydatid cysts, pulmonary, percutaneous treatment, 271
- Hyperplasia, preventing after stent implantation, 12
- Hypertension,
 - , renovascular,
 - , supraaortic artery lesion, 264
 - , 2D TOF MRA, 138
 - , TIPS, thin-needle puncture technique, 343
- Iliac artery, in pigs, PTA and Wallstent, 190
- Impotence, venogenic, microcoils, 170
- Inferior vena cava,
 - , Greenfield filter,
 - , misplaced, retrieval, 110
 - , strut interlocking, 204
 - , Gunther basket filter, mechanical instability, 247
 - , imaging fat thrombus in, 152
 - , thrombosis, 38
- Intrahepatic portocaval shunt, transjugular, 106
- Intrahepatic portosystemic venous shunt, 44
 - , Wallstent, 7
- Intravascular ultrasound, arterial compliance, 22
- Iodized oil and ethanol, TAE for renal cell carcinoma, 323
- Ischemia,
 - , lower limb, thrombolysis and angioplasty, 333
 - , upper limb, thrombolysis, 81
- Jaundice, obstructive, metallic stents, 127
- Lightwire, quantitative angioscopy, 197
- Lipiodol dose level in TAE of HCC, 76
- Liver biopsy, transfemoral, by forceps, 252
- Liver tumors, US with CO₂ microbubbles, 133
- Luminal dimensions, quantitative angioscopy, 197
- Lung abscess, 339
- Magnetic resonance,
 - , angiography, 2D TOF, comparison with angiography, 38
 - , pulmonary artery sarcoma, 185
 - , Turbo-FLASH dynamic, aortic aneurysm, 17
- Malignant ascites, indwelling peritoneal access, 292
- Mandibular AVMs, direct transosseous puncture, 222
- Mediastinal mass in pseudotruncus arteriosus, 158
- Mesenteric artery, superior, fibrinolysis, 214
- Metallic stent,
 - , obstructive jaundice, 127
 - , Takayasu's aortitis, 102
- Microcoils, platinum, venogenic impotence, 170
- Middle colic artery ruptured aneurysm, 167
- Mirizzi syndrome, percutaneous stone removal, 207
- Myocardial infarction, angiography, 87
- Needle,
 - , aspiration, hydatid cysts, 271
 - , thin, puncture technique for TIPS, 343
- Neointima formation, stents of different radial force, 27
- Occlusion,
 - , femoropopliteal, hydrophilic guidewire with movable core, 319
 - , renal, percutaneous recanalization, 258
- Occlusion, venous, platinum coils, 170
- Pancreaticoduodenal aneurysm, embolization, 217
- Percutaneous transluminal angioplasty,
 - , alone and with Wallstent,
 - , in pig iliac arteries, 190
 - , in subclavian steal syndrome, 328
 - , balloon, technique, 116
 - , influence of angiographic morphology on outcome in aortitis, 147
 - , renal, in azotemic patients, 143
- Perforation, arterial, by guidewire, 41
- Peripheral arteries, Omnicath atherectomy, 226
- Peritoneal,
 - , access device, permanent indwelling, 292
 - , port, malignant ascites, 292
- Platelets and neutrophils, PTA, pig iliac arteries, 190
- Popliteal artery, atherectomy, 312
- Portal hypertension, TIPS, 7, 106
- Portal vein stenosis in liver Tx, stenting, 210
- Postlaminectomy AV fistula, 336
- Pseudoaneurysm,
 - , common femoral vein after right heart catheterization, 301
 - , postembolization, embolization, 155
 - , splenic artery, embolization, 179
- Pseudotruncus arteriosus, mediastinal mass, 158
- Pulmonary hydatid cysts, percutaneous treatment, 271

- Pulmonary artery,
 —, involvement in aortoarteritis, 2
 —, sarcoma, CT, MRI, 185
 Puncture technique, thin needle, for TIPS, 343
 Quantitative angioscopy, luminal dimensions, 197
 Radiotherapy, prophylactic endovascular, 12
 Recanalization, percutaneous, renal artery, 258
 Renal artery,
 —, disease, PTA in azotemic patients, 143
 —, occlusion, percutaneous recanalization, 258
 —, 2D TOF MRA, 138
 Renal cell carcinoma, TAE with ethanol and iodized oil, 323
 Renovascular hypertension,
 —, supraaortic artery lesions, 264
 —, 2D TOF MRA, 138
 Retrieval,
 —, deeply-lodged catheter fragments, 113
 —, misplaced filter, 110
 —, sutured central venous catheter, 347
 rtPA, superior SMA, 214
 Sarcoma, pulmonary artery, CT, MRI, 185
 Shunt,
 —, intrahepatic,
 —, —, portocaval venous, 106
 —, —, portosystemic, 7, 44
 —, —, transhepatic and transvenous approach, 173
 —, spontaneous splenorenal, causing encephalopathy, 298
 Splenic artery aneurysm, embolization, 179
 Stenosis,
 —, bile duct in liver Tx, Wallstents, 210
 —, portal vein in liver Tx, Wallstents, 210
 —, tracheobronchial, Z-stent, 33
 Stent,
 —, bile duct stenosis in liver Tx, 210
 —, different radial force affecting neointima formation, 27
 —, lung abscess drainage, 339
 —, neointima formation, canine study, 27
 —, obstructive jaundice, 127
 —, portal vein stenosis in liver Tx, 210
 —, preventing hyperplasia after, 12
 —, self-expanding metallic, Takayasu's aortitis, 102
 —, tantalum, in sheep, plasma treatment to clean, 285
 —, urethral strictures in dogs, 280
 —, with PTA,
 —, —, in pig iliac arteries, 190
 —, —, in subclavian steal syndrome, 328
 —, Z, tracheobronchial stenosis, 33
 Stone removal, percutaneous, Mirizzi syndrome, 207
 Strecker stent, tantalum, plasma treatment to clean, 285
 Streptokinase, SMA thromboembolus, 164
 Strictures,
 —, biliary, metallic stent, 127
 —, canine urethra, tantalum stent, 280
 Subclavian steal syndrome, PTA and stent, 328
 Superficial femoral artery, atherectomy, 312
 Superior mesenteric artery, thrombolysis, 164
 Supraaortic artery lesions in renovascular hypertension, 264
 Takayasu's aortitis, expanding metallic stents, 102
 Technique, angioplasty, crossover guidewire loop, 116
 Thromboembolus, SMA, Streptokinase, 164
 Thrombolysis,
 —, Buerger's disease, 333
 —, ischemia, upper limb, 81
 —, partially occluding SMA by Streptokinase, 164
 —, pulse-spray, IVC, 38
 Thrombus, fat, in IVC, imaging, 152
 TIPS,
 —, in partially thrombosed portal veins, 106
 —, thin-needle puncture technique, 343
 —, transhepatic and transvenous approach, 173
 —, using Wallstent, 7
 Tracheal compression in pseudotruncus arteriosus, 158
 Transcatheter arterial embolization,
 —, and ethanol injection in HCC, 70
 —, lipiodol dose level, 76
 Transjugular intrahepatic portosystemic shunt, 44
 —, thin-needle puncture technique, 343
 —, transhepatic and transvenous approach, 173
 —, using Wallstent, 7
 Ultrasound with CO₂ microbubbles, liver tumors, 133
 Urethral strictures in dogs, stents, 280
 Venogenic impotence, microcoils, 170
 Wallstent in TIPS, 7
 Z-stent, tracheobronchial stenosis, 33
